

ATTENTION TEACHERS AND COACHES of the CLOVER BOWL

Here are some online study helps which can be used to help our young people understand more about the information they are learning in the Clover Bowl program.

The Tennessee Blue Book is by far the leading source for questions in the Tennessee section. The Blue Book is online as well and can be accessed at: <http://state.tn.us/sos/bluebook/> . This is a great resource to give team members a visual image of the information they are studying.

Another great resource is Tennessee History for Kids. This can be accessed at <http://www.tnhistoryforkids.org/> This site has lots of pictures which brings those questions alive for the young people.
