

ELECTRIC CAMP

The 4-H Electric Camp offers special opportunities for career exploration in energy, electricity, and basic sciences, recognizing that young people need an academic and fund environment for meaningful learning to take place. 4-H members may learn more about the following:

- Electric cars and DC motors
- Making an extension cord
- Computer labs and electronics
- Series and parallel circuits
- Lighting applications and electric generation
- How to build telegraphs
- Making a battery tester

Location and Date

Electric Camp takes place at The University of Tennessee Knoxville. It generally takes place the same week as Academic Conference. Check the current Region Calendar for correct dates.

Eligibility and Costs

4-H Electric Camp is open to 4-H members who are in the 6th and 7th grades as of January 1st of the year of the camp. The State cost for electric camp is determined each year. There is no limit to the number of delegates a county can send.

Transportation

Agents will receive a transportation schedule from the State office prior to the event. This schedule will inform agents as to when and where delegates are to meet the bus. Transportation charges are sponsored.
